

## Disclaimer

This webinar is not to be used instead of going to a competent doctor. I do not directly nor indirectly dispense medical advice nor prescribe in any way alternative treatment.

In the event you use this information, which is only of historical value, you are prescribing for yourself which is still your constitutional right. I assume no responsibility.

I am independent in my attempt to educate the public. Although I do endorse some top quality products, I receive no financial support from any health or herb company for producing and sharing this information.

I also believe it is a crime that we have to pussy foot around the truth because there is a law that says that I cannot declare what changing your lifestyle and diet can do for your health, but I love this great country and will do my best to try to obey their law, even if I strongly disagree with them...

Natural health works slowly. I suggest that you do not stop medication without guidance of a doctor. I say this not only because it is the law, but because I BELIEVE STOPPING MEDICATION WITHOUT THE GUIDANCE OF A DOCTOR IS UNWISE AND DANGEROUS.

If you would like to make healthier changes in my diet and my doctor was not willing to help you while you work with a natural health practitioner. I suggest you find a doctor who values and respects his patient's rights and fire the doctor who would not!
