

Disclaimer

This webinar is not to be used instead of going to a competent doctor. I do not direct(ly) nor indirectly dispense medical advice nor prescribe in any way alternative treatment!

In the event you use this information, which is only of historical value, you are prescribing for yourself which is still your constitutional right. I assume no responsibility.

I am independent in my attempt to educate the public. Although I do endorse some top quality products, I receive no financial support from any health or herb company for producing and sharing this information.

I also believe it is a crime that we have to pussy foot around the truth because there is a law that says that I cannot declare what changing your lifestyle and diet can do for your health, but I love this great country and will do my best to try to obey their law, even if I strongly disagree with them...

Natural health works slowly. I suggest that you do not stop medication without guidance of a doctor. I say this not only because it is the law, but because I BELIEVE STOPPING MEDICATION WITHOUT THE GUIDANCE OF A DOCTOR IS UNWISE AND DANGEROUS.

If you would like to make healthier changes in my diet and my doctor was not willing to help you while you work with a natural health practitioner. I suggest you find a doctor who values and respects his patient's rights and fire the doctor who would not!

Fertility and Conception

Hang On!!!

MarysHerbs.com

How to Make a Baby

- Pituitary releases FSH (Follicle Stimulating Hormone)
- Estrogen increases until egg grows and then bursts out of the follicle
- The fallopian pulls in and with peristaltic action starts to move the egg down the fallopian tube which eventually will reach the uterus where it imbeds
- Man produce millions of sperm – only one of which will fertilize the egg
- Sperm breaks thru the egg's thick outer covering, known as the zona pellucida. Each sperm head releases a special enzyme, acrosin, which enables the sperm to penetrate the zona pellucida
- As soon as the sperm penetrates the egg, the egg gets real thick so that other sperm cannot penetrate it
- A fertilized egg (sperm and egg combined) is "conceptus"
- Basal body temperature increases slightly soon after ovulation and remains at that level until your next period.
- Progesterone starts to increase to maintain the pregnancy which then is helped by the placenta.
- By the time that the conceptus becomes a blastocyst (6 days), it enters the uterus
- Hcg – Human Chorionic Gonadotropin tells you whether or not the fetus is thriving

How common is infertility?

Infertility affects at least 20-25% of couples who are of reproductive age <http://www.med-direct.com/mens-fertility/stats.html>

And about 1 in 7 women go to see their doctors because of problems getting pregnant.

<http://www.consumerreports.org/health/treatment-centers/womens-health/fertility-problems/how-common.htm>

Science is Starting to Look at Importance of the Father's Health

MarysHerbs.com

Prepare Thyroid

- Prevent cretinism - physical stunting/ mental retardation
- Blighted Ovum – fertilized egg attaches but embryo doesn't develop
- Infertility
- Lower IQ in baby
- Increase chance of Down Syndrome

Thyroid Activator
Thyroid Support

MarysHerbs.com

Signs of Ovulation

Basal Body Temperature (BBT)

The temperature rise of .6 signals an egg has been released. The rise maybe sudden or gradual climb over several days.

Billings Method – Cervical Fluid

MarysHerbs.com

Determining the Sex of the Baby

- Male Sperm are faster but are easily destroyed by acid
- Female Sperm are slower but can tolerate acid

Understanding and Preventing Ectopic Pregnancy

Scarring From:

- Lack of Vitamin A&D
- STD
- Pelvic infection

Fibroids

Work with:
Liver
Vitamin E
Castor Oil Packs

MarysHerbs.com

Glutathione on Governing Vessel

On women we patch just below the thyroid and for men just above the pubic bone...glutathione.

MarysHerbs.com

Male causes of Infertility

- Sperm mobility Sperm motility and volume c microscope (\$24.95 new on ebay).
- Sperm quantity
- Varicocele (varicose vein in scrotum)
- Testes need to be cool
- Male hypogonadism - Testosterone deficiency
- LH Luteinizing Hormone
- ICSH Interstitial Cell-Stimulating Hormone
- Fluid part of ejaculation comes from the prostate (lack volume)
- Every other day (24-48 hours build up enough sperm)

Zinc, L-glutamine, Damiania, Maca, Saw Palmetto, Neem Oil, Alfalfa, DHEA

MarysHerbs.com

Female Causes of Infertility

- LH Luteinizing Hormone (B-6 to lengthen luteal phase)
- FSH
- Low estrogen (ovulate)
- Low progesterone (set up egg, mature lining and maintain pregnancy)
- Liver
- Thyroid
- Scarred fallopian tubes
- Vaginal and uterine environment

Maca, Wild Yam, Red Raspberry, NF-X, False Unicorn, Sabina
